Blue Lights

Blue Lights on my 'farm clock

Blue Lights on your Wii dock

Blue Lights

Blue Light Special at Big K

Blue Stars in a Milky Way

All the stars are just shining above, and the moon just says "hi, hi"

I am here on the earth still tonight

Snow is here, falling, falling so slowly

On a Norwegian spruce, laden with snow on her branches

I'm just wishing that all of your dreams come true, Blue Lights

Blue Lights from the new dwarf star

Blue Lights underneath my car, Blue Lights

Blue Lights at police road blocks

Blue Lights with the static shocks

All the stars are just shining above, and the moon just says "hi, hi"

I am here on the earth still tonight

Snow is here, falling, falling so slowly

On a Norwegian spruce, laden with snow on her branches

I'm just wishing that all of your dreams come true, Blue Lights

Blue Lights in a hot tub

Blue Lights at my fave' pub

Blue Lights

Blue Lights from the northern sky

Blue Lights are a new sci-fi

Blue Lights, Blue Lights, yah
