

What I Was Working On (words and music Kurt E Hoffman, copyright 2010)

Well this is what I am and what I aimed to be
And this is what I was working on before the news today oh boy
So here it is and it aint too late to know
This is what I was working on, this is what I was working on,
Another something silly little curt love song
I was scheming a plan to take us both away from this pain
I was booking a trip our first ride on an aero-plane
Cuz, this is what I am and what I aimed to be
And this is what I was working on before the news today oh boy
So here it is and it aint too late to know
This is what I was working on; this is what I was working on,
This is what I was working on, and on and on and on
Another something silly little curt love song
There are plenty of brochures, I was planning to read
They seemed like cool places from the hotel lobby
Cuz this is what I am and what I aimed to be
This is what I was working on; this is what I was working on,
This is what I was working on, and on and on and on
Another something silly little curt love song
Another something silly little curt love song
